I'm a junior software developer based in Berkshire, UK. I combine my 2 year product background with web development to iteratively build websites and applications with fast user feedback loops. I also specialise in using a mobile first approach when creating applications in order to provide a consistent and quality user experience.

Professional Experience

Associate Product Owner

Travelport (Jun 2021 - present)

- Supported leading a team for Travelport's order management product to help support and deliver Travelport's upgrade.
- Contributed towards refining the team's backlog and the creation of user stories.
- Helped organise cross-team dependencies.

Product Intern

Travelport (2019 - 2020)

- Supported 3 different core products in different phases of their product lifecycle.
- Created and presented a feature for one of Travelport's mobile application; including creating a lean business case and prototype.

Professional Qualifications

SAFe POPM 5.0 & SAFe DevOps 5.0

Scaledagileframework.com (2021)

BSc. Economic and Mathematics

Keele University (2017 - 2021)
